

Notice on strengthening the information management of trucks

Dear organizers:

In order to strengthen the information management of trucks, from 26 February 2024, we plan to require all trucks to fill in an application form on SNIEC official WeChat account, before they applying for truck pass at the Card Center. The form will include applicant's name + mobile phone number, driver's name + mobile phone number, booth number, where are they come from and where are they going, and other relevant information. After submitting the form, a QR code will be generated. On the day of truck entering, pls present the QR code to the Card Center to pay the pass fee and collect the truck pass; the price and the deposit refund process of the truck-pass will remain unchanged. (Please refer to the attached lesson).

Thank you for your understanding & supporting.
